CAP Validated: TD-2009-05-05-1

CAP Description: As-Is: No evidence of calibration of tools used on the production floor

Responsible person: Tom Page

Person Validating: John Martzel

Validation Plan: The HINS project where this CAP was found is not currently in production, and since the calibration status of measuring devices in use need to be examined to validate this CAP, it is not possible to validate it at this time.

Validation results: Not validated; defer to 8/2012 V&V assessment

Date Validated: NA

Findings: None

Signature: John Martz Date: 1/12/2012
