

Proposed Committee Assignments for the  
Soudan Underground Laboratory Operations Director's Review  
May 14-15, 2003

Status and Operating Plans

Understand the present status, projected progress, and operating plans for the SUL Experiments. Are the operating plans appropriate for the anticipated scientific programs?

*David Sinclair\**  
*Dan McCammon*  
*Steve Brice*  
*Jim Stone*  
*Wyatt Merritt*

Management of SUL

Including relationships among Fermilab, the University of Minnesota, and the Minnesota DNR  
MoU/SoW/PO procedures

*Dan Green\**  
*Bill Boroski*  
*Peter Garbincius*  
*Ed Temple*

Budgetted Cost (Estimate) and Planned Funding

Are the cost estimates reasonable for the planned operations? Do anticipated funding levels match the needed budget profile.

*Bill Boroski\**  
*David Sinclair*  
*Steve Brice*  
*Wyatt Merritt*  
*Dean Hoffer*

Potential Laboratory Expansion and possible Fermilab role

*Jim Stone\**  
*David Sinclair*  
*Dan McCammon*  
*Steve Brice*

\*Indicates Subcommittee Lead, ie the person responsible for getting a consensus developed and incorporated into a section of the Review Committee Report. All committee members are welcomed and encouraged to comment on all areas. It is desirable that the report represent the view of the entire committee.
