AUG 24 2011

Dr. Bruce L. Chrisman
Chief Operating Officer
Fermilab
P.O. Box 500
Batavia, IL 60510

Dear Dr. Chrisman:

SUBJECT: MODIFICATION TO PERFORMANCE EVALUATION AND MEASUREMENT PLAN (PEMP) FOR CONTRACT NO. DE-AC02-07CH11359

Reference: Letter, from B. Chrisman to M. Weis, dated July 28, 2011, Subject: Same As Above

Goal 2, Objective 2.1 of the Fiscal Year (FY) 2011 PEMP requires Fermi National Accelerator Laboratory to "Lead a collaboration of national laboratories and universities to prepare conceptual design and alternatives analysis for the Long Baseline Neutrino Experiment (LBNE), which is suitable for review by the Office of Project Assessment in preparation for Critical Decision 1". In response to your referenced letter requesting modification, the Department of Energy (DOE), Office of High Energy Physics, has elected to not revise or remove this Notable Outcome from the FY 2011 PEMP. DOE recognizes that failure to meet this Notable Outcome is due to factors outside the control of the Laboratory. Therefore, DOE's evaluation will fairly reflect the Laboratory's work towards the intent of the Notable Outcome.

Going forward, DOE will take steps to ensure future Notable Outcomes are not reliant upon third party contributions or actions.

Sincerely,

Rory S. Simpson
Contracting Officer
