

NALWO LUNCHEONS

Thursday, April 26

11:00 a.m.

Tour of the Buffalo Barn

Fermilab Site 53

Site map at <http://www.fnal.gov/pub/visiting/map/site.html>

Click near "Buffalo Barn" for detail

Fermilab Bison program staff will show us through the barn and corral system, and answer questions about the program. We may have to walk or drive to an area nearest the herd where we can view the herd. We will not be allowed to go inside the fence. Also, there are no calves expected this spring and the reasons for this will be explained. No special clothing is required, but be prepared to walk outside and wear shoes that can get dirty

Lunch after the tour (around 12:30 p.m.):

Wang's Garden 2933 Kirk Road, Aurora, IL,
wangsgarden168.com

South of the lab, on the east side of Kirk Road, in a shopping center just before the intersection with Butterfield Rd. Great recommendations on the food.

RSVP by the Wednesday before the luncheon to
Pauline Berberian: epber@sbcglobal.net or 630-587-6468
