

## Regional Photo

The aerial photo at the left encompasses the entire region that could contain the International Linear Collider. We selected two locations to enlarge to illustrate the relative scale of a 10 acre site. You will note that Fermilab is located in the approximate center of this photo.

## 10 Acres Illustrated

### Example 1

The red shaded area on the aerial photo to the left indicates a 10 acre site for comparison purposes. This particular example is the IBEW building located at I-88 and Winfield Road.

## 10 Acres Illustrated

### Example 2

The red shaded area on the aerial photo to the left indicates another 10 acre site for comparison purposes. This particular example is the Costco store located at Route 59 and 79th Street in Aurora. The store and most of the parking lot comprise the 10 acres.
