

## Calendar

### Monday, November 6

**2:30 p.m.** Particle Astrophysics Seminar  
- Curia II

Speaker: A. Klypin, New Mexico State University

Title: Motion of Satellites of Galaxies:  
Newton Against MOND

**3:30 p.m.** DIRECTOR'S COFFEE  
BREAK - 2nd Flr X-Over

**4:00 p.m.** All Experimenters' Meeting -  
Curia II  
Special Topic: Booster Activities

### Tuesday, November 7

**3:30 p.m.** Director's Coffee Break - 2nd  
floor crossover

THERE WILL BE NO ACCELERATOR  
PHYSICS AND TECHNOLOGY  
SEMINAR TODAY

## All-hands meetings tomorrow

There will be two all-hands meetings in the auditorium tomorrow, November 7, at 11:00 a.m. and at 1:00 p.m. Employees are encouraged to attend one of the meetings and bring questions about the new FRA contract. To find answers to frequently asked questions before the meeting, visit the [FRA transition website](#).

## Employee Art Show

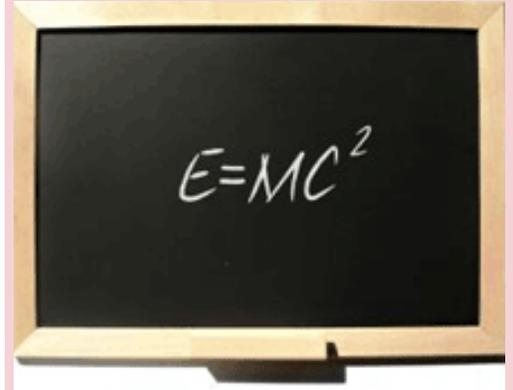

CDF's Elena Vataga submitted this piece titled "Conversation."

This year's Employee Art Show goes on display today in the Fermilab art gallery and runs through January 3. The gallery, instituted by Robert Wilson, reflects the importance of art in the lives of those who work in the sciences. "People are involved in the art show for multifaceted reasons," said Gallery Curator Georgia Schwender. "For many it is a creative release and moral booster."

The art of this year's show is in a variety of media: stained glass, quilted fabric, oil painting, wood, and metal sculpture. The

## Safety Tip of the Week

### Lessons learned

As our injury rates continue to fall, we must look to other sources of information to guide our injury prevention strategies. One alternative is to improve communication of ES&H successes and failures via a lessons learned program. Fermilab's lessons learned program is described in the [ES&H manual, chapter 3020](#). Senior Safety Officers will develop one lesson each quarter, and are looking for suggestions you may have for a lesson learned.

Lessons learned can be defined as knowledge gained through experience. They are considered a key component to an organizational culture committed to knowledge management and continuous improvement. Their goals are to promote recurrence of successful outcomes and reduce the recurrence of negative outcomes. Lessons learned must be both significant and applicable to the organization in order to have an impact.

Lessons learned generated at Fermilab get posted at the following web location: Fermilab Home > ES&H Home > ES&H Tools > Guidance & Information >

**Monday, November 6**

- French Quarter Gumbo
- French Dip with Horseradish Cream Sauce
- Santa Fe Pork Stew
- Tandori Chicken
- Turkey Breast on Homemade Focaccia
- Assorted Slice Pizza
- Sweet n' Sour Chicken with Egg Roll

The Wilson Hall Cafe accepts Visa, Master Card, Discover and American Express.

**Chez Leon****Wednesday, November 8****Lunch**

- Stuffed Cabbage w/Sauerkraut
- Julienne of Peppers
- Baked Apples with Crème Chantilly

**Thursday, November 9****Dinner**

- Caribbean Root Vegetable Soup
- Red Snapper Vesuvio
- Steamed Rice
- Green Beans & Red Onions
- Banana Walnut Spring Rolls with Caramel Rum Sauce

**Info**

works of 53 artists are on display this year. Alicia Filak, Audit Services manager, has been creating art since childhood and served as the art editor of her high school paper. She appreciates the art show as way to connect with fellow employees through art. This year she is displaying two water color paintings. Fellow employee Kathy Johnson, box office manager for the arts and lecture series, first entered the employee art show 15 years ago. This year she is displaying a woven necklace of glass beads and a colored pencil portrait. Johnson feels it is therapeutic to concentrate on something artistic.

All employees and their families are invited to the artist's reception this Wednesday, November 8, from 5-7 p.m. The Fermilab singers will perform and light refreshments will be served. For more information [visit the gallery website](#).

**In the News****CERN Press Release, November 3, 2006:****Open Access publishing in physics gains momentum**

Geneva, 3 November 2006. The first meeting of European particle physics funding agencies took place today at CERN[1] to establish a consortium for Open Access publishing in particle physics, SCOAP3[2]. This is the first time an entire scientific field is exploring the conversion of its reader-paid journals into an author-paid Open Access format.

Open Access is a policy that could revolutionize the academic publishing world and have a great impact on research. By changing the traditional model of financing publications through

[Lessons Learned](#). This web page allows you to sign up to receive automatic notices of newly posted lessons.

Besides reviewing lessons learned, and implementing those that make sense for your organization, please stay alert for candidate lessons to pass on to supervisory and/or ES&H personnel. We would like to hear about near-miss incidents and clever safety improvements.

**Announcements****Dinosaurs stay longer**

The "Dinosaurios Argentinos" exhibit at the SciTech Hands-on Museum in Aurora has been extended. The exhibit will continue for another two months, until January 7, 2007. The exhibit features life-size replicas and 8 complete skeletons of dinosaurs. The objects are for the first time on display in the United States and include the Giganotosaurus, the largest predator to ever walk the earth. Tickets are \$12.

**Scottish Country Dancing and International Folk Dancing**

Scottish Country Dancing will meet Tuesday, November 7, at Kuhn Barn. Instruction begins at 7:30 p.m. and newcomers are always welcome. Most dances are fully taught and walked through, and you do not need to come

with a partner. Info at 630-840-8194 or 630-584-0825 or [folkdance@fnal.gov](mailto:folkdance@fnal.gov).

International Folk Dancing will hold a special workshop this Thursday, November 9. Dennis Boxell, one of the early teachers of Balkan dance in America, will be sharing his knowledge on Serbian and Bulgarian dances, and will have CDs of music and dance videos available as well. The workshop will run from 7:30 to 10:30 p.m. at Kuhn Barn. All are welcome and you do not need to come with a partner. Info at 630-584-0825 or 630-840-8194 or [folkdance@fnal.gov](mailto:folkdance@fnal.gov).

#### **Professional Development**
