

### Scheduling Meeting of 21 October 2008

Days Worked since last Recordable Injury = 11

	FY06	FY07	FY08	FY09	Goal
TRC Cases	29	31	12	2	<12
DART Cases	7	12	3	2	<5

### Injuries Reported to Medical Department from 10/9/08 to 10/16/08

Division	Case Date	Date Entered	Reportable?	Medical		ES&H	
				ODD	LDD	ODD	LDD
AD	10/9/08	10/10/08	Yes	0	0	3	7
<p><b>Medical Comments:</b> While transporting die table, employee's left lower leg caught between table and motorized pallet jack.</p> <p><b>ES&amp;H Comments:</b> The employee and co-worker were making a controlled access through a gate in the Tevatron late in the workshift. Following the injury, the employee went home and reported to the Medical Department the following morning. He was sent home for the day. The case is a DART.</p>							
CD	8/14/08	10/15/08	CP	0	0	0	0
<p><b>Medical Comments:</b> Employee says that she first noticed pain on 8/14/08 in the base of right thumb and wrist. Pain has increased over time. Reported to Medical Department on 10/14/08.</p> <p><b>ES&amp;H Comments:</b> Employee reported injury to the medical office two months after the first onset of pain. She made some modifications to her workstation setup and switched her mouse use to the left hand. She stated that she did not immediately report the pain with the thought that her modifications would make the pain subside. She frequently (almost daily) works many hours at home on her laptop, while sitting on her couch. She said that her posture, while working at home, is not optimal.</p>							
PPD	11/1/07	10/16/08	No	0	0	0	0
<p><b>Medical Comments:</b> While working on DES Project, employee worked in front of X-ray (Iron-55) source.</p> <p><b>ES&amp;H Comments:</b> In November 2007, the source was about 250 microCuries. A rough calculation of the dose rate from this source results in an exposure rate of 1.5 microR/hr at 1 foot. No significant dose was possible.</p>
