

Scheduling Meeting of April 14, 2009

Days Worked since last Recordable Injury = 7

Includes Employees & subcontractors

	FY06	FY07	FY08	FY09	Goal
TRC Cases	29	31	12	13	<12
DART Cases	7	12	3	6	<5

Injuries/Vehicle Accidents Reported

04/06/2009 - 04/13/2009

Injuries:

Division	Category	Case Date	Date Entered	Reportable?	Rx	Medical		ESH	
						ODD	LDD	ODD	LDD
PD	FNAL	04/07/2009	04/07/2009	No		0	0	0	0
<p>Medical Comments: Two batteries exploded in a universal power supply (battery back-up), causing exposure to loud noise. Audiometric test was performed at Medical Office.</p>									
<p>ESH Comments: Two batteries of a UPS exploded in the vicinity of two employees. The batteries were contained in a rack. Employees will be reevaluated to determine if an injury occurred. The causation of the explosion is under investigation.</p>

TD	FNAL	04/08/2009	04/08/2009	No		0	0	0	0
<p>Medical Comments: While walking out to government vehicle, employee felt a sting on right forearm. Applied ice and came to Medical Office for first aid.</p>									
<p>ESH Comments: After working for some time inside IB-4, the employee walked outside to go to a government vehicle. As he put his arm down to his side and brushed up against his shirt, he felt a "prick" on the inside of his forearm. He noticed a red spot and a little later swelling that produced a welt. The employee applied ice to the area and went to Medical where he received first aid treatment. The swelling had disappeared after three hours, and only a small red spot remained. It is surmised that the employee had a spider on his shirt, and when his arm brushed up against his shirt, he was bitten by the spider. There are no visible signs of spiders in IB-4, but plenty of places for them to hide. It is too cold for flying stinging insects to be active outdoors, and none have been noticed in IB-4. Back in 2000 an employee working in IB-4 had received a suspected spider bite, but there have been none since.</p>
