- Following a routine annual inspection by the Illinois EPA, DOE/Fermilab has **received a Notice of Violation from IEPA for the unpermitted storage of a mixed waste containing chromium at the Hazardous Waste Storage Facility (HWSF)**. The lab was storing approximately 5 gallons of a spent mineral rescaling agent (Rydlyme) that contains approximately 9.5 mg/l chromium. Fermilab is not permitted to store waste containing chromium greater than 5 mg/l at the HWSF. The lab has initiated the process of disposing the waste as a mixed waste. **This incident was categorized as an ORPS and has been submitted as such.**
