

Fermilab at work

Scheduling Meeting of February 9th, 2010

Number and rate of TRC and DART cases by FY - Includes Employees & subcontractors

	FY06	Rate	FY07	Rate	FY08	Rate	FY09	Rate	FY10	Rate	Goal	Rate
TRC Cases	29	1.4	31	1.52	12	0.66	26	1.22	4	0.65	<12	0.65
DART Cases	7	0.3	12	0.6	3	0.16	12	0.64	0	0	<5	0.25

TRC = Total Recordable Case means more than first aid treatment was given.

DART = Days Away Restricted Transferred means more than first aid treatment was given AND restrictions were job limiting or the employee could not work.

Injuries/Vehicle Accidents Reported

2/01/2010 - 2/08/2010

Division	Category	Case Date	Date Entered	Recordable?	Rx	Medical		ESH	
						ODD	LDD	ODD	LDD
AD	FNAL	02/02/2010	02/02/2010	No		0	0	0	0

Medical Comments: Employee was grinding metal yesterday (2/01/10); noticed pain in left eye after work. Reported to medical office today, where the foreign body was removed.

ESH Comments: The employee was using a handheld grinder at New Muon Lab. He was wearing safety glasses underneath a face shield while using the grinder and did not have any eye irritation during the job. He developed eye irritation after he went home for the day, several hours after completion of the grinding. The irritation persisted into the following day, so he reported to the Medical Office, where a foreign body was removed from his left eye. First aid treatment only; no limitations. It is suspected that some of the metal particles generated during the grinding had become trapped in the employee's hair and that, at some point in the evening, the material fell into his eye.

ORPS/Incidents/Notices of Violation:

None Reported

H1N1 Update:

- Please consider getting your H1N1 flu vaccination. They are readily available at most pharmacies and through some doctor's offices and health departments. Last year, we saw a spike in H1N1 in the April/May time frame. It is possible that we will see that again this year.
- 171 suspected cases have been reported thus far. (Two new cases reported last week.)
- Questions or concerns should be directed to Dr. Brian Svazas at X3232 or svazas@fnal.gov.
