

Scheduling Meeting of December 13th, 2011

Number and rate of TRC and DART cases by FY - Includes Employees & Subcontractors

	FY08	Rate	FY09	Rate	FY10	Rate	FY11	Rate	FY12	Rate	Goal	Rate
TRC Cases	12	0.66	26	1.22	19	1.04	20	1.03	6	1.68	<12	0.65
DART Cases	3	0.16	12	0.64	6	0.34	6	0.26	4	1.12	<5	0.25

TRC = Total Recordable Case means more than first aid treatment was given.

DART = Days Away Restricted Transferred means more than first aid treatment was given AND restrictions were job limiting or the employee could not work.

Injuries:

Division	Category	Case Date	Date Entered	Recordable?	Medical		ESH	
					ODD	LDD	ODD	LDD
AD	FNAL	12/07/2011	12/07/2011	No	0	0	0	0
Medical Comments: While setting down a pipe on a trailer the employee's finger got pinched between the pipe and the trailer. He was wearing gloves.								
ESH Comments: The incident occurred outside of G2 Service Building. The employee was assisting a subcontractor in carrying a steel pipe (8 feet long, 2.5 inch diameter) to a trailer. As they were setting the pipe down in the trailer, the employee's right index finger was pinched between the pipe and the trailer bed, resulting in a contusion of the finger. He reported to the Medical Office where he received first aid treatment and returned to work with no restrictions. The employee was wearing work gloves which reduced the severity of the injury.								
PD	FNAL	12/07/2011	12/07/2011	No	0	0	0	0
Medical Comments: While moving a storage cabinet, an aluminum tube stored behind the cabinet fell onto the employee's face when the cabinet was moved.								
ESH Comments: Employee suffered a minor laceration and bruise on his nose. First aid treatment.								
FE	FNAL	12/10/2011	12/12/2011	Yes	0	1	0	1
Medical Comments: While unloading a van, the employee was backing out of the van with a handful of batteries when he lost his balance and fell to the ground.								
ESH Comments: The individual was at Site 38 by the HUS Building to perform truck/van clean out. While in the back of the van, the individual began backing out of the rear of the								

van holding material with both arms. He doesn't know if his jacket snagged the door or his foot missed the step (possible both) but he did lose his balance, falling to the asphalt on his right hand. The double doors were not staying propped open and had to use his back to push them open as he exited the cargo area of the van. This case is a DART due to medical restrictions.

Vehicle Accidents:

None

ORPS/Incidents/Notices of Violations:

None
