WP/C (TRC)									3			
WP/C (DART)									0			

WP/C = we are now tracking the number of TRC/DARTS that occur due to lack of work process and/or control or not following the work process/control.

Injuries:

Division	Category	Case Date	Date Entered	Recordable?	Rx	Medical		ESH	
						ODD	LDD	ODD	LDD
AD	FNAL	11/19/2012	11/20/2012	No		0	0	0	0

Medical Comments: While stretching, the employee hit his right middle finger on a piece of mu-metal causing a laceration. Three steri-strips were applied.

ES&H Comments: The incident occurred in the Main Injector tunnel. The employee had been wrapping ion pumps with mu-metal. When he had finished the work for the day, he removed his gloves and yawned and stretched his right arm upward over his head and his middle finger hit a piece of mu-metal wrapped around an ion pump near the recycler. The employee's finger began to bleed. He went to the onsite Medical Department where the wound was cleaned and 3 steri-strips were used to close the wound (first aid treatment). The employee returned to work with restrictions which do not prevent him from performing the routine functions of his job.

Claim Pending cases will now appear on the Scheduling Meeting Handout with the understanding that they are still under investigation and the details of the case may change.
