

Take 5ive

Avoid injury and reduce environmental impacts

Help reduce emissions and contribute to building a greener Fermilab

Reduce

- Do I really need to buy more of this item?
- Is there a greener alternative?

Reuse

- Check excess list before buying new.
- Repurpose existing equipment.

Recycle

- Recycle whenever possible.

ESH&Q's David Baird and Matt Quinn carpool to Fermilab. Two parking spaces located near the west entrance of Wilson Hall are available for carpoolers. Two or more people riding together in a vehicle qualifies as a carpool and there is no need to register for a "carpool pass."

To register for the GreenRide, go to the ESH&Q home page and click on Sustainability, then scroll down to GreenRide.

Take 5ive for the environment

At work:

- Register at GreenRide and carpool
- Power down what is not being used
- Use a reusable mug or cup
- Keep the environment in mind when designing projects and equipment
- Make sustainable purchases
- Report leaks and inefficient systems

At home:

- Plant native landscaping
- Compost
- Lower thermostat in winter and raise it in summer
- Pack a lunch with reusable containers
- Shop with reusable bags
- Do full loads of laundry and dishes
- Unplug appliances that are not in use
