

## Chicago Field Office of Intelligence & Counterintelligence

Laurie Tyzenhaus (Chicago Field Office (CFO) CI Cyber) and Steve Fuller (ANL) are co-hosting a Counterintelligence Cyber Awareness Seminar on September 15 and 16, 2009. The seminar will focus on cyber counterintelligence and security awareness for DOE-CH Federal and contractor employees. CFO-CI has assembled a very strong team of technically astute speakers for this event and invite you to join us for what promises to be a most informative day and a half. Morning and afternoon refreshments will be served.

The objective of the CI Cyber Seminar is to enhance the general level of CI cyber awareness, identify the CI cyber threat, assist in understanding the current cyber implications of the war on terrorism, review selected case studies and forensics, and discuss protection measures for personnel and key management officials having responsibilities for unclassified computing resources. The unclassified seminar will be held at Building 362, Auditorium on Wednesday, September 16, 2009 from 8:30 am - 4:30 pm. Personnel from the Microsoft, US-CERT and other U.S. Government agencies will make presentations. All of the speakers are highly respected and technically knowledgeable in their areas of expertise.

A half-day classified component will be held on Tuesday, September 15, 2009, at Building 316, Special Programs Facility (SPF), Room A118 starting at 1:00 pm. The classified session will further amplify the CI cyber threat facing the DOE complex. You must possess a "Q" or "L" access authorization badge and have a "need to know" in order to attend this session. Your clearance must be confirmed prior to the briefing, so please register for this session today! Refreshments will be served.

Attached are tentative agendas for both the unclassified and classified seminars. Please feel free to forward this invitation to anyone within your organization that may have an interest in the subject matter. Questions on seminar content or attendance should be referred to Laurie at [laurie.tyzenhaus@ch.doe.gov](mailto:laurie.tyzenhaus@ch.doe.gov).

If you plan on attending either or both days, please respond to Laurie Tyzenhaus by September 4, 2009, indicating your preferences. We expect the Classified session to fill quickly and space is limited, so please reply at the soonest. Please forward this invitation to anyone else you believe would benefit from attending this seminar.

## AGENDA FOR THE CI CLASSIFIED CYBER SEMINAR

**Building 316, Special Programs Facility (SPF)**

**\*\*\*\*\* Classified Session \*\*\*\*\***
