Medical Comments: Contractor was loading a leak detector onto a truck. He was on the back of the flatbed when they raised the carriage up and the rear wheels jammed against the frame of the flatbed. He bent down to grab the front of the base and another contractor came up on the other side of the detector and pushed it causing the hitch to come down and hit him in the eye. Laceration to the eyelid and blunt force trauma to the eyeball. Contractor refused to go to hospital via Fermilab Fire Department and had a family member pick him up.
